Subject: RE: two things

Jake,

When you say "us" do you mean WVDEP or EPA **and** WVDEP? For the minewater discharge, we would be sampling sediments which means we would need Berwind's consent regardless, because they own one side of the creek. Also, both the powerhouse and tipple areas of concern are far enough off the road that we would not be able to sample these areas via public right of ways. I have CCed Tom Cinti, our regional counsel, to see whether any further discussions should be had with their attorney. We can hold off on sampling these areas tomorrow until we have a better idea of how to move forward.

Thanks,

Justin Bleiler

No. They would like for us to go to the locations and see if there can be representative sampling done from public RW.

Jake,

Ware Lumber: No, we just received additional data today so I would assume that SI has not been finished yet, correct?

Anchor Hocking: Yes, I received the SI from you on 5/21/18.

Parsons Tannery: No, the most recent information I received about Parson's Tannery was the validated data on 4/25/18.

Also, attached is the final version of the sampling map. Have you received any updates about accessing Berwind property for sampling? If you would like to contact me on Monday, phone is the best way since I will be in the car most of the day. We will see you on Tuesday morning at 8 am.

Thanks,

Justin,
Please let me know if you have received SI reports from Ware, Anchor Hocking, and Parson's Tannery.

Also,
How is the sampling plan coming along for Arbuckle-Minden?
Thanks
